

STANDARD & MEDIUM DUTY **FOOD PLOT SEEDER**

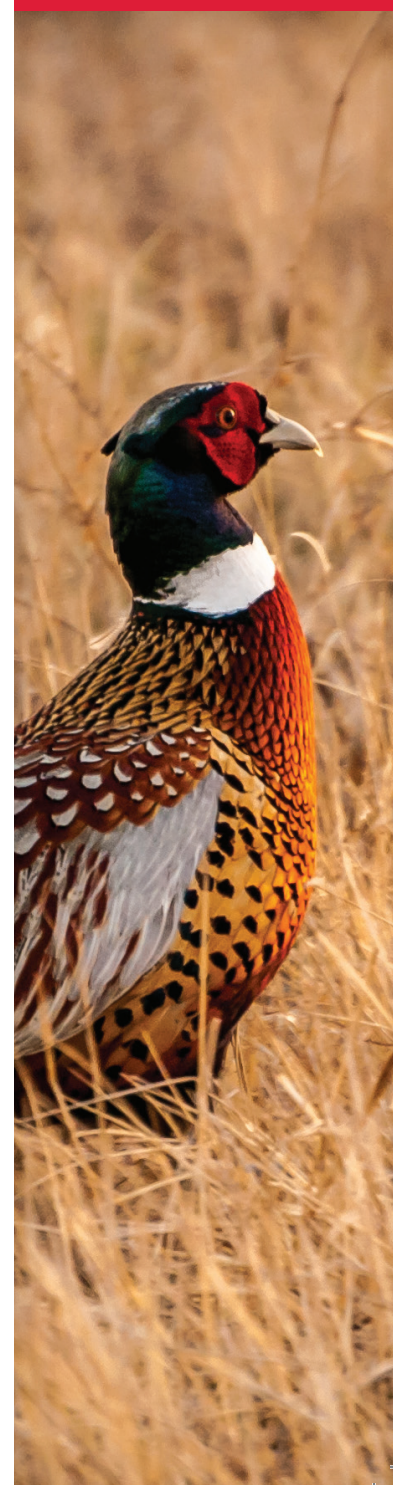

FEATURES

Available in three seed box options.

Native grasses. You will always plant with confidence.

Yanmar food plot seeders give you the tool you need to establish, maintain and replant any volume of food plots, plus the flexibility to handle a range of other seeding and planting tasks. These seeders offer three seed box options to fit the widest possible selection of seed types. Cool season grasses, warm season, legumes, oats, wheat, barley rye, prairies grasses, wild flowers, radishes, soybeans turnips — these seeders can handle it all. Gain efficient, one-pass planting of up to three seed types simultaneously. On models equipped with three seed boxes, plant two different grass seeds at grass seed depth while planting a legume seed at its ideal planting depth. All seed boxes can be engaged/disengaged independently with a single lynch pin – no tools required. Along with seed box combinations, accessories include front spiked rollers, disc blades and cast iron or nylon trailing cultipackers.
