

ONE-ROW  
**CULTIVATOR**

**FEATURES**

Versatile attachment made for three tractor models.

## Cultivating and prepping gardens made easier

The One Row Field Cultivator excels at prepping garden soil as well as planting and fighting weeds. This is the implement needed to plant small row crops like potatoes, corn, and tomatoes. Our Cultivator has six C-shaped tines with reversible and replaceable curved metal tips. The tines are attached to the implement frame with bolts and can be adjusted horizontally. The tines are in staggered rows which break up the dirt and distribute moisture for planting. The Cultivator also easily tills the soil on each side of a garden row to remove unwanted grass and weeds.

MODEL	YFC201
Tractor horsepower required	19-45
Implement type	Cultivator
Approx. Weight	139 lbs.
Length	37"
Width	50.5"
Height	36"
Hitch	Cat 1
Quick hitch compatible	Yes
